## Crash Affectees Group

---

### Join the AirBlue Crash Affectees Group

Families and individuals whose near and dear ones perished in the AirBlue air crash tragedy on July 28, 2010, in Islamabad have joined hands to form the **AirBlue Crash Affectees Group (ACAG)**.

The purpose of the Group is to:

- Provide a platform for all those affected by the tragedy to gather and share their pain and to raise their concerns
- Highlight the lack of coordination on part of the authorities and AirBlue to manage the crisis faced by so many families affected by the unfortunate incident
- Urge the government and stakeholders to clearly identify the cause of the crash in the most transparent manner
- Ensure that affectees are adequately compensated as per international laws and precedents
- Urge the authorities to constitute an independent commission to design standard operating procedures for dealing with similar disasters in future
- Form a Benevolent Trust to support families of the victims

All families, friends and sympathizers are requested to come forward and register with the Group.
